Dector James Williams:—For several years past, I have been liable to attacks of Dyspepsia; but never have I been more distressingly efflicted with its symptoms, than with in the last few weeks. Indigestion, nervous irritability, despondency, a sensa of weigat in the somach, and sorre peins in the left side, rendering me, for the time being, truly wretched. Forthantely, I was recommended by a friend to try your Elixir. I did so, and in tess than two weeks, indigestion ceased; pum and nervous depression left me, and appetite, with mental and boddy health, were fully restored. To me the cure seemed almost miraculous, and my object m writing to you is—a hope that other persons suffering the miseries of Dyspepsia will avail themselves of your efficient remedy.

lication of the Louisville Times is suspended. This step was contemplated by the publishers immediately after the Presidential election in November, but has been deferred to this time with the hope that the office might be disposed of to parties who would continue it in the service of the Democratic party.

The necessity of closing the office is, of course, deeply regretted by them, but the heavy pecuniary sacrifices to which they have already been subjected forbid the publishers from continuing the enterprise any longer. By suspending now they feel satisfied that the assets of the office will be amply sufficient to satisfy any indebtedness that may be due to subscribers, which will be liquidated as soon as such assets can be realized.

The publishers are gratified that they were able to sustain the paper until after a glorious Democratic victory had been won in Kentucky, and are consoled with the belief that they contributed their part to this proud achievement.

To our numerous patrons in Kentucky and other States, we prefer our grateful acknowled gements for the many kindnesses extended to us, and beg leave to express the hope that, however profitless the Times has been to its publishers, it has not been entirely devoid of usefulness and interest to them.

Our job office, in which we are prepared to

execute every variety of work, will be continued until further notice.

The news from Washington, is, that Arizona, the Gadsden purchase, as a Territory is not to exist. The House Committee, however, agree that the Territory needs some legislation, and they propose a Federal Judge:

It is to be presumed (says the committee) that the eastern portion of New Mexico will be pre-pared, at no distant day, for admission into the Union as a State. When the Territory is divi-ded for that purpose, as it unquestionably will, be, then would seem to be the proper time for the establishment of a new Territorial Govern-

GREAT WAR ENGINE.

MESSES. EDITORS: Noticing in your issue of January 10th, an article under the head of "Won-derful New War Machine," in which great doubts are expressed in regard to the invention of so terrible a machine, I hasten to lay before your readers something of the history of a machine invented in the year 1836-37, by Mr. Benjamin Reynolds, of Kinderhook, in this State.

The machine referred to was called a "centri fugal battery," of a circular form, 22 inches in diameter, and three inches in thickness. This machine was put in operation by means of two cranks, one on each side of the carriage on which it was placed, for the purpose of being transport- when they would proceed up the river and recaped from place to place.

The writer of this article was one of three per-

sons who, during the autumn of the year 1837, exhibited it to the officers of the U. S. arsenal at Gibbonsville, when under the command of the late Gen. Worth, who invited the Governor and the exhibition. All who witnessed its operation spoke of it in terms of the highest commenda-Col Worth advised us to take it to the city of Washington without delay, as he thought t of great importance to the country; but requested us to exhibit it at Westpoint, N. Y., on our way thither, which we did. It was put in operation by order of Col. Derusie, who then ommanded at that point. At 110 yards, the oalls of 2 oz. weight were thrown through three thicknesses of 11 inch Georgia pine, at the rate of more than one thousand per minute! The Commandant and Professors expressed great as-tonishment at the power of the machine, which was put in operation on all occasions by one man at each of the cranks.

The third trial took place at Greenleaf Point, 1). C. under the inspection of Captain Ramsay, President Van Buren and most of the heads of Departments of the United States being present e effect upon those who witnessed its operation being the same as upon those who had witness ed its operation at the other places.

The fourth trial was had before a committee o Congress appointed for that purpose. At this trial the committee exercised great perseverance; first, in regard to its power and range, and see ed, in regard to the number of shots projected in a given time. On this occasion the power applied was as before, one man at each of the two ranks. The target, three thicknesses of one uch pine planks, at the distance of 150 vards. Each ball was projected through the target and falling from three to four hundred yards beyond the Potomac river. They were not so successful, however, in determining the number of shots thrown in a given time. In this test sixty balls of two onness, were placed in a tin them. One end of the tube was then placed at the admitting orifice of the battery, into which they were carried by the action of gravity and the exhausting disposition of the machine. The space of time taken for the projection of sixty shots was so small a portion of a second that the committee could not roport any specific space of

A model, drawings, and specifications of this machine were duly deposited in the Patent Office of the United States at that time. A four pound battery of this description is in course of construction in this city at the present time.

-----DAGADFUL SUFFERING IN NEBRASKA .- The Cleveland Plain Dealer contains the following letter concerning the sufferings of a respectable gentleman, formerly a citizen of Cleveland: NEBRARKA CITY, Friday, Dec. 26, 1856.

Mr. A. A. Betts—Dear Sir: let of the month for Salt Creek, distance some lorty-five miles, and on the 2d we had a heavy snow-storm, scompanied by a heavy wind, which drifted the snow into the ravines so that it was almost impossible for a person to travel. On Monday night they built a cab-in and made a fire, and at that time they were out some thirty-five miles. They staid in the cabin all that day, Tuesday, and Tuesday night, and it turned very cold, and on Wednesday they started for home, and they got on the wrong road; but, according to their estimate, they came some ten miles and built a fire; but the wind was so changeable they could not stay by it, and they laid all night in the snow and frosted their feet. In the morning they started again, and the snow was so packed that when bey stepped on it they would break through and were obliged to crawl on their bands and knees more than half the time, and on Thursday, in this way, they come some eight or ter miles, and here they came to a vacated claimhouse—we here call them cabins—and in it found a mattrass, sheet and buffalo robe and

During the day, In creasing a stream of water, father fell in and got their matches wet, and they could not make a fire, and in the cabin the snow was about a foot deep, which blowed in at the roof. But they shook the snow off the bed and got in and staid all night, and through the day nd night they froze their feet and hands very bad. In the morning they commenced cutting their boots off, and it took them four hours to get them off, and in the operation they froze their hands, as they sa d, like sticks, and their feet at the time were frozen through. They cut up a blanket and wrapped around their feet. They staid in this cabin all day Friday and Friday night, and that night was the coldest we have had here. The thermometer stood at 20 degrees below zero, and they got chilled through. On Friday night when they laid down they expected finding themselves alive, they concluded to make another start, and they crawled about half a mile, gave out, and went back and laid down to

I employed two doctors to attend them, and on Thursday I employed the third as a nurse; but all for no good to poor Jackson. On that night, the 11th inst., he breathed his last. If he had got over it he would have lost both feet and ands; but it was impossible for him to recover, as he was chilled through. Father's fingers have all dropped off, and his thumbs to the first joint from the end. On his left foot all his toes, and on his right foot both his heel and his toes came off. On Monday last we had it amputated two

inches above the ancie joint. * * *
It may make your blood run cold to read these lines, but you cannot guess how much father has suffered. When the doctor cut his leg off, he laid and looked on without saying a word, or moving a muscle. They sawed the bones off with a carpenter's saw. Did you ever hear of the like? Yours truly,

NEBRACKA CITY, Dec. 26, 1856.

Father is about gone. He cannot live but a few hours. Mr. Poe was not only one of our oldest but most respected of citizens. His loss will be deplor-ed by all who knew him.

LATER FROM NICARAGUA. Southwest Pass. Jan. 15.—The steamship Texas, Capt. Crowell, from San Juan del Norte, with passengers, to Harris, Morgan & Co., crossed the Bar at 7 o'clock this morning.

The Texas, on her outward trip, arrived at San Juan on the 4th inst. She left on the 10th,

on her return trip.

The steamship Sierra Nevada, from San Fransco, arrived at San Juan del Sur on the morn-

ing of the 2d inst. The steamship James Adger, from New York, arrived at San Juan del Norte on the 9th, and left on the 10th, with the California passengers, for Aspinwall. She will return immediately rom Aspinwall to San Juan, and take the Cali

fornia passengers brought by the Sierra Nevada, to New York. The Nicaragua troops under Gen. Hen-ningsen, numbering about 400 men, were besieged nineteen days in Granada by a force of about 3000 of the enemy.

On the 18th December, Gen. Henningsen received reinforcements of 200 men, and on the Quindora to Lawrence. 9th he succeeded in driving the enemy from the place and subsequently removing to Rivas, the present capitol of Nicaragua, all the military stores and public documents uninjured.

The city of Rivas, the present capital, was ta-ken possession of by the Nicaragua forces, without a single shot being fired, the enemy having ferent. Yet it is possible that the inventor of the evacuated the place at once, on hearing of their

On the 23d, of December a force of 200 Costa Ricans, under command of a man named Spennew machine, in the same sense that Fulton, or cer, a former employee of the Transit Company, Fitch, or some person farther back than either of came down the river Serrapiqui, and thence to Punta Arenas, and took possession of the two them, was the inventor of the steam engine. In either case, the Scientific American's recent denial of the existence of such an engine is shown ing all the boats on the river, till they met the steamboat San Carlos, having on board the California, passengers for New York and New Or-leans. Spencer promised to take them safely to Greytown on one of the boats in his possession and they accepted his proposition, and arrived at Greytown the following day, just as the steamship Texas was heaving in sight.
On seeing the Texas coming in, the Costs

Ricans stove up all the benches and other wood work of their boat, to make fuel, and made all haste to get out of the port. A force of recrults for Gen. Walker, number

ng about three hundred men, well armed and uipped, had arrived at Punta Arenas before the Texas left, and had quartered on the point, awaiting the repairing of another steamboat, which would be completed in about five days, ture the steamboat and endeavor to take the man Just as the Texas was leaving, a messenger ar-

ved with the news that Gen. Walker, finding that the lake boats did not return as usual, had crossed the lake, to ascertain the cause, and had the heads of the State Departments to witness attacked and retaken San Carlos, and was then on his way down the river carrying everything

SAN GEORGE, Dec. 16, 1856. On the 5th, the steamer Virgin arrived from Virgin with ammunition, and the sick and wounded, and after disembarking all at this place, she started over to Muygalpa, on the Island of Ometepec, for the sick and wounded that had been sent to that place on the 21st November, and returned with them on the 6th. On the 7th, the steamer arrived here with

about 250 recruits from New Orleans, and about 30 from New York, which, together with about 70 that arrived from California, gives a reinforcement of about 250 men.

News being received that the enemy were still at Rivas, a scouting party of Rangers were sent out to reconnoitre, and coming upon one of their pickets, fired upon them and drove them

On the night of the 1 1th Gen. Walker left here for Granada, on the steamer Virgin, with about two hundred men-composed of four companies of rangers and two of infantry—under command of Col. Waters, and on the night of the 12th landed about two miles below the Old Fort, on the beach. The landing was effected without any loss, although a detachment of the. enemy's lancers were on the beach, and kept up an ineffective firing. After forming, they ad-vanced, and attacked the first barricade, which was strongly defended; but nothing could withstand the impetnous charge of our men. The coemy were in a few moments driven from it with great slaughter. With the same impetuosity, two other barricades were attacked and carried, and a junction effected with those in the fortifications by daylight. This achievement was not accomplished without loss, as the enemy seemed to fight with desperation; and at the first barricade many hand-to-hand encounters took place, and many were killed. With Colt's six-shooters the loss of the enemy was very great, as dead bodies were strewed all over the road Our loss was thirty-seven in killed and wounded in this last attack. Our loss in the attack upon Granada, together with the several attacks on the fortifications and by cholera, could not have been less than one hundred and fifty; at least two-thirds of which number was from cholera,

coasioned as above stated.

After the junction was effected, the enemy re mained perfectly passive; and all the troops, wounded and sick, ordnance, &c., were embark-ed without opposition, except by a few shot from cannon too far to do any execution, and arrived safely here on the 13th. Among the killed, &c., at Granada was Capt. Geo. Gist, aid to Gen. Walker; owen Duffy, editor of Nicara-guense, died of disease; Wm Bonvey, died; Lient. Toohey, r issing (supposed to have deserted to the enemy); B. F. Turner, died of wounds; J. llampton Smith, died; Capt. Scorch, killed; Henry C. Langdon, died; Dr. Rice died of cholera; John Talbot, missing; Judge Basey died; Dr. Cabball, died. Among those killed in the last attack on the barricades was Capt. Sam Leslie, of the rangers, and Peter Lacoste, of N. U., ser-

geant of the same corps.

During the siege, the enemy sent several flags of truce, asking the besieged to surrender, prom-ising to spare their lives if they would lay down their arms, informing them that Gen. Walker and been defeated on the transit route, and that they, the enemy, had possession of the whole country, as well as the San Juan river, and that their only salvation was in surrendering.

Since the arrival of the troops at this place

the health of the army has very visibly in ed, and I hope soon to be able to write that there

are no sick.

The Rangers that were sent out towards Rivas this morning have just returned, with informa-tion that the enemy had evacuated the place, and that the town was deserted. On receiving this information, Gen. Walker immediately or dered all the army (except the 2d lufantry, under command of Col. Jaquess, left to garrison this place,) to march upon Rivas; and while I am now writing, the different companies, with flags flying, are marching out of town.

RIVAS, Dec. 29, 1856. This town has a somewhat gloomy appearance. The tortifications made by the enemy here are the best and strongest I have yet seen in the country, and if they had remained to fight from behind them, it would, no doubt, have caused he loss of many of our troops before they could

have been taken. The following is a list of promotions and appointsments in the Army on the 25th November 2d Lieut. James H. Hearsey, promoted to Cap-

The remains of Aifred Thurston, Esq., well and widely known as cashier of the Bank f Louisville, were conveyed to their final resting place yesterds y morning, attended by a large number of citizens. At the First Presbyterian church, where Mr. T. had long been a pewholder, the funeral services were of a very solemn and impressive character.

SUDDEN DRATH .- Information was received in this city yesterday morning of the death of Capt. 1. S. Moorhead at Baltimore early in the day His death will be deeply mourned by a very large circle of business associates outside of his amily circle. He was one of our most successful business men and was unniversally liked. The annonncement of his discease fell liked a thunder clan upon his friends here.

A MODERATE DEMAND .- An insane man, who gave his name as Hoffman, visited the Police Court of Cineinnati the other day, and applied for a warrant against Congress. The astonished clerk demanded what for, and received for a reply that Congress owed him (Hoffman) the whole United States. The clerk declined to issue the warrant, and the disappointed applicant left the Conrt-room, declaring his determination to cross the Atlantic and obtain the aid of the crowned heads of Europe in securing his rights.

NEW COUNTERFEIT .- The Frankfort Commonwealth has just been shown a new and very dangerous counterfeit on the Bank of Kentucky The note is a twenty dollar bill, letter B, payable at the Hopkinsville Branch. The defects by which it can be most readily detected are in the eves of McKnight and Webster on the two maigins. The central portion of the Vignette is also very bad. The bill which we have seen was taken at the Branch of Kentucky in this place, and it was only after the closect scrutiny that it could be told from a genuine note.

THEATER.—There was a large and appreciative sudience in attendance at this favorite place of amusement last evening to greet the great actress -Miss Dora Shaw-on the occasion of her bene-

fit. The deep and interesting character of Camille was beautifully and artistically portrayed by her. We have taken so many occasions to speak of the beautiful and delicate impersonations of character by Miss Shaw, who, with a voice of peculiar melody, and an enunciation of ncommon distinctness, renders every part she undertakes a portrait, that it is not necessary to enumerate the beauties of her reading or her

The part of Armand was well sustained by J. G. Hanley, who has, by his urbanity, his due attention to management, his uniform excellence in pendering his performances, and his readiness to play any and everything, have made him a favorite here, second to none. Stars have lost half their lustre, or borrowed a portion of their radiance, from his faithful and powerful delineation of characters when he has seconded them. The impression made by him, while playing some SOUTHERN PACIFIC R. R. AGENCY characters during the present season, will not be effaced. His perception of character is that of a man alert to seize the salient points. He is a man of genius, and imparts a warmth to the characters he represents that cannot fail to impress an

IN calling the attention of dealers in our line in this maket, we would state that during the last six months our attention has been directed to getting up a large number of new Stoves and Grate Patterns, which, added to our already large stock, gives us one of the most extensive and diversified assortments in the Western market. Among the number, we would refer to our "Ashland Kentuckian!" Cook Stove, (three sizes out). Tuese Stovas have great weight of metal, highly fluished and stant in appearance. They combine all the modern fluincents that practical experience has developed. We would invite dealers to call and examine for themselves, and we think it quality, price, &c., they can be suffed. Having colarged our manificationing department, we can promptly meet all demands. Thanktul for the patronage which has been so kindly bestowed upon us, we trust, by strict and prompt attention to fill orders, to secure a continuance of it. And the quality of our manufactured work shall be, as heretolore, equal if not superior to the best, and satisfaction given in all eases.

DR. BELL'S OPINION OF HOSTETTER'S BITTERS. SPRINGFIELD, ILL., April 14, 1856.—Some months since, while recovering from an attack of Remittent Fever, I was requested to try Hostietter's Bitters, as an article peculiarly suited to the con-dition of convalescents from fever. It is but simple instice to say that it restored the powers of my digestive organs, and at the same time kept my bowels gently open. I have no hesitan-cy in saying, that, hitherto, in using it in my practice, it has, in every case where I have or-dered it, acted like a charm. In thus speaking freely of it, I far from puff a patent medicine, an article it by no means claims to be.

SANDFORD BELL, M. D. Sold by druggists and dealers generally. ja8 In Paddock's Book of Plates and Illustrated Counterfeit Detector for 1856, he says: "Hostetter's Bitters are really what their name implies, a tonic and gentle stimulant, calculated to act upon the system as a medicine, and not as is too often the case, a mere invention under which to indulge in tippling. We would not venture to make this statement, did we not feel sure that it would be corroborated by the wilng testimony of thousands all over the United States, and especially throughout the western and southern parts, where certain disorders preand southern parts, where certain disorders prevail, which requires just such a prescription. No. 536, Northwest corner Main and Third Streets,

IN calling the attention of dealers in our line in this
maket, we would state that during the last six months
our attention has been directed to getting up a large
number of new Stoves and Grate Patterns, which, added
to our already large stock, gives us one of the most ex
tensive and diversified assortments in the Western market. Among the namber, we would refer to our "Ashland Kentuckian" Cook Stove, (three sizes out). These
Stoves have great weight of metal, highly faished and
generatin appearance. They combine all the modern
and powerents that practical experience has developed.

We would invite dealers to call and examine for themselves, and wo think in quality, price, &c., they can be
suited. Having enlarged our manufacturing department,
we can promptly meet all demands. Thankis for the
patronage which has been so kindly bestowed upon us,
we trust, by strict and prompt stitention to fill orders, to
secure a continuance of it. And the quality of our manulactured work shall be, as herelofter, equality for superiror to the beet, and satisfaction given in all cases.
